To Whom It May Concern,

The following request is being made in accordance with the Freedom of Information Act (5 U.S.C. § 552).

For weeks, the Trump administration has only released photos and video of migrant boys in detention ages 10 and up. DHS and DHHS have repeatedly ignored questions and withheld information on the migrant girls and infants separated from their families. Finally today, HHS released select images of two shelters, but they still have not allowed media or elected officials to enter the detention facilities.

We know that more than 3,000 women and girls are currently being detained — and an undisclosed number of babies and pregnant women. We also know that Scott Lloyd, who heads the Office of Refugee Resettlement, has a history of attempting to bar women in his custody from accessing attorneys or abortion care.

Meanwhile there are reports of children in detention being forcibly injected with drugs, and children being sent to shelters with documented histories of physical and sexual abuse — and children's deaths.

American Bridge is working to uncover the locations and conditions of infants and women and girls, including pregnant women, currently being detained by the US government.

I: Requested Records

I am requesting copies of all Form ORR-6 Performance Report, which details the number of refugees currently being assisted by the Office of Refugee Resettlement as well as the details services they are receiving from the Office, as well as any supporting or supplementary records for each form submitted by each state and grantee to the Office of Refugee Resettlement between April 6, 2018 and June 21, 2018.

I am also requesting email and other correspondence from the Office of Refugee Resettlement related to the need for special accommodations for female and young children, including but not limited correspondence about the new facility in Houston designed for children under 12 and pregnant and nursing teenagers as reported by the *Washington Post* on June 19, 2018.¹

II: Application to be a media requester

To help assess my status for copying and mailing fees, please note that I am filing this request as a media entity requestor on the behalf of American Bridge 21st Century. American Bridge 21st Century is an organization that is, “primarily engaged in disseminating information, urgency to inform the public concerning actual or alleged Federal Government activity.” See 5 U.S.C. § 552(a)(6)(E)(v)(II). Further, our organization will utilize our staffs, “editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience.” See U.S. Code 5 U.S.C. 552a (4) (A) (iii)².

American Bridge maintains a highly trafficked website that frequently publishes briefings and memos that reports and analyzes the current activities in the White House, U.S. Congress and various Congressional Campaigns. The briefs and our website is reliant on obtaining and utilizing the public records to inform the public about the un-reported activities of our government³ and its public officials⁴. See U.S. Code 5 U.S.C. 552a (4) (A) (iii).

We are an organization that various media entities have credited with providing research that they based articles and publications on. Thus we can, “demonstrate a solid basis for expecting publication through that entity.”⁵ See U.S. Code 5 U.S.C. 552a (4) (A) (iii). In March 2017, the New York Times published a front-page story that stated, “The Walden Group attracted little attention until his nomination to the Supreme Court, when American Bridge, a liberal research group, identified public records about it that linked Judge Gorsuch to Mr. Harvey.”⁶ In addition, in January 2017, USA Today published our organization’s work without credit in their article on ExxonMobil, in the section that stated, “The sales were conducted in 2003, 2004 and 2005 by Infineum, in which ExxonMobil owned a 50% share, according to SEC documents unearthed by American Bridge, a Democratic research group.”⁷

Given the preceding and the fact that American Bridge does not plan to use the information gained from these records for commercial use, yet instead will analyze, publish and then circulate the information that is gained from these records on our website, social media platform, through briefs, we meet all the requirements to be classified as a media requester.
