

THOMAS HARDIMAN AND CLIMATE CHANGE

Highlights:

- Thomas Hardiman said he believed climate change was a hoax.

Hardiman Said Climate Change Was A Hoax

NPR: HARDIMAN SAID CLIMATE CHANGE WAS A HOAX

NPR: Hardiman Said Climate Change Was A Hoax. According to NPR, “For instance, he dissented from a decision that upheld New Jersey’s restrictive law on who may receive a permit to carry a gun. Hardiman’s one of those people everyone really likes, down to earth, smart, as one colleague put it a closet scholar. Several people noted that because of his many years as a trial lawyer and a trial judge, he has more experience trying cases than most of the other Supreme Court justices. Personally, he’s said to be very conservative or even in the view of some a little wacky. If you get him going, said one colleague, you’ll find out he thinks climate change is a hoax.” [NPR, [1/30/17](#)]
